

Toyota-Lift of Minnesota Capability Statement

Celebrating over 31 years of operations in Minnesota, Brooklyn Park based Toyota-Lift of Minnesota (TLM) has been the area's fastest growing forklift dealership. We are currently offering a full line of high-quality lift trucks, aerial equipment, personnel and burden carriers as well as warehouse and material handling systems sold through our American Warehouse Systems division.

Built on a reputation of excellence and high quality service, our growth remains consistent through our commitment to our company's mission statement.

Our mission is to improve the customer's productivity and bottom line through better products, services, and customer service personnel.

TLM can be your "Total-Source" material handling provider through the following services and goods.

MHEDA Member

Toyota Industrial Equipment

A full line of high-quality lift trucks sold under the Toyota brand. Built on a reputation of excellence, Toyota remains popular due to its quality, reliability and durability. Quality is the hallmark of Toyota's world-renowned Toyota Production System practiced at all Toyota manufacturing facilities, including Toyota Industrial Equipment Manufacturing (TIEM) in Columbus, Ind.

Taylor-Dunn Equipment

For nearly sixty years, their standard and custom vehicles - burden carriers, personnel carriers, stockchasers, electric carts, tow tractors & more - have been the leading solution for customers in a broad range of industrial, commercial, and ground-support markets.

Aichi Aerial Equipment

Producing quality aerial work platforms and other aerial lifting solutions since 1962. Collaborating with customers to improve work environments has helped to create more secure, more efficient, and more contented work zones for the communication, construction and utility industries.

JLG Equipment

JLG Industries, Inc. is the world's leading designer, manufacturer and marketer of access equipment. Our diverse product portfolio includes leading brands such as JLG® aerial work platforms; JLG, SkyTrak® and Lull® telehandlers; and an array of complimentary accessories that increase the versatility and efficiency of these products.

Kalmar Equipment

Kalmar forklift trucks with up to 50 ton lifting capacity are designed and built for tough demands down to the finest detail. They offer a high level of reliability and a long life span. This type of handling is not only heavy, the loads are often awkward and fragile as well, this places strict demands on the lifting equipment.

Kesmac Equipment

Kesmac is considered to be one of the most recognized and fastest growing truck mounted forklift brands in the industry today. It can outlast all other brands with adequate maintenance, offering better trade-in value than their competitors!

Industrial Batteries

Toyota-Lift of Minnesota offers a comprehensive program of industrial lift truck batteries, including brands such as Crown, EnerSys and SBS.
